

IMAN FUND
EXPENSE EXAMPLE
November 30, 2017 (Unaudited)

As a shareholder of the Fund, you incur two types of costs: (1) transaction costs and (2) ongoing costs, including management fees and other Fund expenses. This Example is intended to help you understand your ongoing costs (in dollars) of investing in the Fund and to compare these costs with the ongoing costs of investing in other mutual funds. The Example is based on an investment of \$1,000 invested at the beginning of the period and held for the entire period (6/1/2017 - 11/30/2017).

Actual Expenses

The first line of the table below provides information about actual account values and actual expenses. Although the Fund charges no sales load or transaction fees, you will be assessed fees for outgoing wire transfers, returned checks and stop payment orders at prevailing rates charged by U.S. Bancorp Fund Services, LLC, the Fund's transfer agent. If you request a redemption be made by wire transfer, currently a \$15.00 fee is charged by the Fund's transfer agent. IRA accounts will be charged a \$15.00 annual maintenance fee. The example below includes, but is not limited to, management fees, fund accounting, custody and transfer agent fees. However, the example below does not include portfolio trading commissions and related expenses, and other extraordinary expenses as determined under generally accepted accounting principles. You may use the information in this line, together with the amount you invested, to estimate the expenses that you paid over the period. Simply

divide your account value by \$1,000 (for example, an \$8,600 account value divided by \$1,000 = 8.6), then multiply the result by the number in the first line under the heading entitled "Expenses Paid During Period" to estimate the expenses you paid on your account during this period.

Hypothetical Example for Comparison Purposes

The second line of the table below provides information about hypothetical account values and hypothetical expenses based on the Fund's actual expense ratio and an assumed rate of return of 5% per year before expenses, which is not the Fund's actual return. The hypothetical account values and expenses may not be used to estimate the actual ending account balance or expenses you paid for the period. You may use this information to compare the ongoing costs of investing in the Fund and other funds. To do so, compare this 5% hypothetical example with the 5% hypothetical examples that appear in the shareholder reports of the other funds. Please note that the expenses shown in the table are meant to highlight your ongoing costs only and do not reflect any transactional costs, such as sales charges (loads), redemption fees, or exchange fees. Therefore, the second line of the table is useful in comparing ongoing costs only, and will not help you determine the relative total costs of owning different funds. In addition, if these transactional costs were included, your costs would have been higher. Please note that Iman Fund does not have any sales charge (loads), redemption fees, or exchange fees.

	Beginning Account Value 6/1/17	Ending Account Value 11/30/17	Expenses Paid During Period 6/1/17 - 11/30/17*
Actual	\$1,000.00	\$1,120.30	\$7.12
Hypothetical (5% return before expenses)	1,000.00	1,018.35	6.78

* Expenses are equal to the Fund's annualized expense ratio of 1.34% multiplied by the average account value over the period multiplied by 183/365 (to reflect the one-half year period).

IMAN FUND

Total Rate of Return For the Period November 30, 2007 to November 30, 2017 (Unaudited)

This chart assumes an initial investment of \$10,000 made on November 30, 2007 and held through November 30, 2017.

Performance data quoted represents past performance and does not guarantee future results. The investment return and principal value of an investment will fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original cost. Current performance of the Fund may be lower or higher than the performance quoted. Performance data current to the recent month end may be obtained by visiting www.investaaa.com.

Indices mentioned are unmanaged and used to measure stock markets. You cannot invest directly in an index.

The graph and table do not reflect the deduction of taxes that a shareholder would pay on Fund distributions or redemptions of Fund shares.

The Trust currently offers one series of shares to investors, the Iman Fund (the “Fund”), a diversified series of the Trust. Allied Asset Advisors, Inc. (“AAA” or the “Adviser”), a Delaware corporation, serves as investment adviser to the Fund.

The Trust is authorized to issue an unlimited number of shares without par value, of each series. The Trust currently offers one class of shares of the Fund.

The investment objective of the Fund is to seek growth of capital while adhering to Islamic principles. To achieve its investment objective, the Fund seeks investments that meet Islamic principles whose prices the Fund’s Adviser anticipates will increase over the long term. Under normal circumstances, the Fund invests its net assets in domestic and foreign securities chosen by the Adviser in accordance with Islamic principles. Islamic principles generally preclude investments in certain businesses (e.g., alcohol, pornography and gambling) and investments in interest bearing debt obligations. Any uninvested cash will be held in non-interest bearing deposits or invested in a manner following Islamic principles.

The Fund is an investment company and, accordingly, follows the investment company accounting and reporting guidance of the Financial Accounting Standards Board (“FASB”) Accounting Standards Codification Topic 946 Financial Services – Investment Companies.

2. Significant Accounting Policies

The following is a summary of significant accounting policies consistently followed by the Fund in the preparation of its financial statements. These policies are in conformity with accounting principles generally accepted in the United States of America (“GAAP”).

Use of Estimates: In preparing the financial statements in conformity with GAAP, management is required to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities as of the date of the financial statements and the reported amounts of increases and decreases in net assets

from operations during the reporting period. Actual results could differ from these estimates.

Security Valuation: Investment securities are carried at fair value determined using the following valuation methods:

- Equity securities listed on a U.S. securities exchange or NASDAQ for which market quotations are readily available are valued at the last quoted sale price on the valuation date.
- Options, futures, unlisted U.S. securities and listed U.S. securities not traded on the valuation date for which market quotations are readily available are valued at the most recent quoted bid price. The Fund did not hold any such securities during the period ended November 30, 2017.
- Securities or other assets for which market quotations are not readily available are valued at fair value as determined in good faith by the Adviser under direction of the Board of Trustees. The Fund did not hold any such securities during the period ended November 30, 2017.

The Fund has adopted fair valuation accounting standards which establish an authoritative definition of fair value and a three-tier hierarchy to distinguish between (1) inputs that reflect the assumptions market participants would use in pricing an asset or liability developed based on market data obtained from sources independent of the reporting entity (observable inputs) and (2) inputs that reflect the reporting entity’s own assumptions about the assumptions market participants would use in pricing an asset or liability developed based on the best information available in the circumstances (unobservable inputs) and to establish classification of fair value measurements for disclosure purposes.

Summary of Fair Value Exposure at November 30, 2017

The Trust has performed an analysis of all existing investments to determine the significance and character of all inputs to their fair value determination. Various inputs are used in determining the value of the Fund’s investments. These inputs are summarized in the three broad levels listed below:

Level 1 - Quoted prices in active markets for identical securities.

IMAN FUND
NOTES TO THE FINANCIAL STATEMENTS (Continued)
November 30, 2017 (Unaudited)

Level 2 - Other significant observable inputs (including quoted prices for similar securities in active markets, quoted prices for identical or similar instruments in markets that are not active, model-derived valuations in which all significant inputs and significant value drivers are observable in active markets, interest rates, prepayment speeds, credit risk, etc.)

Level 3 - Significant unobservable inputs (including the Fund's own assumptions in determining the fair value of investments)

Inputs that are used in determining a fair value of an investment may include price information, credit data, volatility statistics and other factors. These inputs can be either observable or unobservable. The availability of observable inputs can vary between investments and is affected by various factors such as the type of investment or similar investments in the marketplace. The inputs will be considered by the Adviser, along with any other relevant factors in the calculation of an investment's fair value. The Fund uses prices and inputs that are current as of the measurement date, which may include periods of market dislocations. During these periods, the availability of prices and inputs may be reduced for many investments. This condition could cause an investment to be reclassified between the various levels within the hierarchy.

Investments falling into the Level 3 category are primarily supported by quoted prices from brokers and dealers participating in the market for those investments. However, these may be classified as Level 3 investments due to lack of market transparency and corroboration to support these quoted prices. Additionally, valuation models may be used as the pricing source for any remaining investments classified as Level 3. These models rely on one or more significant unobservable inputs and/or significant assumptions by the Adviser. Inputs used in valuations may include, but are not limited to, financial statement analysis, capital account balances, discount rates and estimated cash flows, and comparable company data.

The inputs or methodology used for valuing securities are not an indication of the risk associated with investing in those securities.

The following is a summary of the inputs used to value the Fund's net assets as of November 30, 2017:

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
Common Stocks	\$93,451,593	\$ —	\$ —	\$93,451,593
Preferred Stock	2,035,488	—	—	2,035,488
Total*	<u>\$95,487,081</u>	<u>\$ —</u>	<u>\$ —</u>	<u>\$95,487,081</u>

* Additional information regarding the industry and/or geographical classification of these investments is disclosed in the Schedule of Investments.

There were no transfers into or out of Level 1, Level 2 or Level 3 fair value measurements during the reporting period for the Fund, as compared to their classification from the most recent annual report. It is the Fund's policy to consider transfers into or out of Level 1, Level 2 or Level 3 as of the end of the reporting period.

Foreign Securities: Investing in securities of foreign companies and foreign governments involves special risks and consideration not typically associated with investing in U.S. companies and the U.S. government. These risks include revaluation of currencies and future adverse political and economic developments. Moreover, securities of many foreign companies and foreign governments and their markets may be less liquid and their prices more volatile than those of securities of comparable U.S. companies and the U.S. government. The Fund does not invest in securities of U.S. or foreign governments.

Federal Income Taxes: It is the Fund's policy to comply with the requirements of the Internal Revenue Code applicable to regulated investment companies, and the Fund intends to distribute all of its taxable income and net capital gains to shareholders. Therefore, no federal income tax provision is required.

As of and during the year ended May 31, 2017, the Fund did not have a liability for any unrecognized tax benefits. The Fund recognizes interest and penalties, if any, related to unrecognized tax benefits as other expenses in the Statement of Operations. During the year, the Fund did not incur any interest or penalties. The statute of limitations on the Fund's tax returns remains open for the years ended May 31, 2014 through May 31, 2017.

IMAN FUND
NOTES TO THE FINANCIAL STATEMENTS (Continued)
November 30, 2017 (Unaudited)

As of May 31, 2017, the components of distributable earnings on a tax basis were as follows:

Cost of investments	<u>\$67,877,999</u>
Gross tax unrealized appreciation	\$17,161,741
Gross tax unrealized depreciation	<u>(1,679,998)</u>
Net tax unrealized appreciation	<u>\$15,481,743</u>
Undistributed ordinary income	2,326,139
Undistributed long-term capital gains	<u>3,046,027</u>
Total distributable earnings	<u>\$ 5,372,166</u>
Other accumulated losses	—
Total accumulated gain	<u>\$20,853,909</u>

The difference between book basis and tax basis unrealized appreciation is attributable primarily to the tax deferral of losses relating to wash sale transactions.

Under current tax laws, losses realized after October 31 may be deferred and treated as occurring on the first business day of the following fiscal year. For the fiscal year ended May 31, 2017, the Fund did not defer, on a tax basis, any post-October losses.

Distributions to Shareholders: The Fund will distribute substantially all of the net investment income and net realized gains that it has realized on the sale of securities. These income and gains distributions will generally be paid once each year, on or before December 31. The character of distributions made during the year from net investment income or net realized gains may differ from the characterization for federal income tax purposes due to differences in the recognition of income, expense or gain items for financial reporting and tax reporting purposes.

The tax character of distributions paid were as follows:

	<u>Six Months Ended</u> <u>November 30, 2017</u>	<u>Year Ended</u> <u>May 31, 2017</u>
Ordinary Income	\$ —	\$1,726,529
Long-term capital gains	\$ —	\$3,589,882

Dividend income and distributions to shareholders are recorded on the ex-dividend date. The Fund may periodically make reclassifications among certain of its capital accounts to reflect the tax character of permanent book/tax differences

related to the components of the Fund's net assets. These reclassifications have no impact on the net assets or net asset value of the Fund.

Other: Investment transactions and shareholder transactions are accounted for on the trade date. Net realized gains and losses on securities are computed on the basis of specific security lot identification. Withholding taxes on foreign dividends have been provided for in accordance with the Fund's understanding of the applicable country's tax rules and rates.

In October 2016, the U.S. Securities and Exchange Commission adopted new rules and amended existing rules (together, "final rules") intended to modernize the reporting and disclosure of information by registered investment companies. In part, the final rules amend Regulation S-X and require standardized, enhanced disclosure about derivatives in investment company financial statements, as well as other amendments. The updates to Regulation S-X are effective August 1, 2017, and may result in additional disclosure relating to the presentation of derivatives and certain other financial instruments. These updates have no impact on the Fund's net assets or results of operations.

Subsequent Events: In preparing these financial statements, management has performed an evaluation of subsequent events after November 30, 2017, through the date the financial statements were issued and determined that there were no significant subsequent events that would require adjustment to or additional disclosure in these financial statements.

3. Investment Advisory and Other Agreements

The Trust has an Investment Advisory Agreement (the "Agreement") with the Adviser, with whom certain officers and a Trustee of the Trust are affiliated, to furnish investment advisory services to the Fund. Under the terms of the Agreement, the Trust, on behalf of the Fund, compensates the Adviser for its management services at the annual rate of 1.00% of the Fund's daily average net assets.

For the period ended November 30, 2017, the Fund had advisory expenses of \$436,053 and as of November 30, 2017, the Fund had \$76,354 payable to the Adviser.

Shares Outstanding

Beginning of period	<u>5,476,359</u>
End of period	<u>6,569,251</u>

5. Securities Transactions

During the period ended November 30, 2017, the cost of purchases and proceeds from sales of investment securities, other than short-term investments, were \$28,135,155 and \$26,287,227, respectively. There were no purchases or sales of U.S. government securities for the Fund.

6. Beneficial Ownership

The beneficial ownership, either directly or indirectly, of more than 25% of the voting securities of a fund creates a presumption of control of the fund, under Section 2(a)(9) of the Investment Company Act of 1940. As of November 30, 2017, the North American Islamic Trust (“NAIT”) held 48.11% of the Fund. NAIT is the parent company of the Adviser.
